(By the Associated Press)

New York, Oct. 3.—The New York Giants and Yankees, standard bearers of the National and American Leagues, were tuned to concert pitch today in final workouts in preparation for the opening tomorrow of their successive struggle for premier baseball honors. The Giants were victors last year in a tensely fought world's series that lasted eight games. The laurel this year will go to the team winning four out of seven.

With a shorter series, attendance records were not expected to exceed last year's high mark—269,977 paid admissions for eight games—but in indications pointed to capacity demands. Club officials today announced a sell out in reserved seats for the first six games, with thousands of unfilled applications. This is exclusive of 22,000 unreserved seats in the bleachers and upper tier of the grand stand, which will go on sale each day at 10 a. m.

Even Babe Ruth was unable to satisfy a last minute desire for tickets. The Yankee slugger appeared at the Giants' offices in his quest.

"Sorry, Babe, but there isn't even a hope left," he was told. He was but one of many.

Crowd on Hand.
Advance guards of delegations from all parts of the United States, Canada and outlying points were on hand early today. The influx was expected to reach its height tonight.

Close to 600 newspaper men from all parts of the continent were on hand. Two hundred additional press applications could not be granted because of the limited facilities.

Promise of fair weather, with ideal temperatures, not only for the opening game, but probably for the rest of the week, checked many untoward moves by rain.

But above and beyond the sold and material facts, the scramble for tickets and the preparations of the faithful who will start the beacher's vigil tonight in the lee of Coogan's bluff, fans in the highways and by ways were absorbed in the battle of "ifs" and "ands"—the pro and (Continued on Page 2)

M'LEAN COUNTY PIONEER DIES OF PARALYSIS

Washburn, N. D., Oct. 3.—The death of Miss Hilda Sophia Falck, which occurred at the Falck country home, takes from this community one of the pioneer residents of the community and of the county.

Miss Falck suffered a stroke of paralysis a couple of weeks ago, from which she was unable to rally, and death came Sunday afternoon. At the time of her death she was approaching her 76th birthday. Mrs. Falck was born in Larvig, Norway, January 29, 1847. When a young woman she married Constant M. Falck and for a period of six years she and her husband resided at Christiania, the capital of Norway. The first part of September, 1882, she and her husband emigrated from the native home for America coming direct to Bismarck, where they arrived about the middle of October. From Bismarck they came up to McLean county where they homesteaded and where she has been living ever since. Mr. Falck passed away in 1915. Four children were born to them three of whom are still living. Mrs. M. McLean, of Bismarck, has two sons, Frederick and Arthur, who have managed the farm for their mother since their father's death.

Operators Reject Hoover Request

Cleveland, Ohio, Oct. 3.—A telegram from Herbert Hoover, secretary of commerce, and James L. Davis, secretary of labor, requesting submission of a panel of 20 names of persons disassociated with coal mining, for use in the creation of a fact finding commission of the coal industry, provided under the Borah-Winslow bill, was in the hands of T. K. Maher of Cleveland, temporary chairman, at the second joint session in the butaminous miners-operators conference here today.

The request for the naming of such a panel was rejected by the operators yesterday, the operators explaining they believed they were required under the Cleveland agreement, which practically settled the soft coal strike last August to appoint a committee of men connected with the coal mining industry and that compliance with the request of the Federal government would abrogate the Cleveland agreement.

About County Jail

Montgomery, Ala., Oct. 3.—One negro was killed, a score attacked and one white man shot in disorders last night and early today following the arrest of Joe Terrell, negro, charged with the murder of George Wilson, a game warden, who was shot Saturday night while searching for a negro alleged to have killed Albert Sanson, a city policeman.

Judge Leon McCord, of the circuit court, ordered the grand jury called into special session here this morning to investigate the killing of Wilson. Terrell, according to the police, has confessed he shot the game warden. Two negro men and two negro women reported to have been with Terrell when Wilson was shot are being held at witnesses.

Three companies of National guardsmen were ordered to the jail when the mob began increasing in number last night, and later the fire department was called on to disperse the crowds by using the fire hose. Shots were fired at the jail but the soldiers did not return the fire of the mob.

The mob dispersed shortly after midnight and military officials now report no further trouble is expected.

Montgomery was quiet today following a night of excitement which resulted when a mob made repeated demonstrations in an effort to storm the county jail where Joe Terrell, negro, alleged slayer of George Wilson, county game warden, was imprisoned late yesterday.

Five Men Wounded

Before firemen and military could disperse the mob, five men were wounded. They are:

Rev. A. J. Stokes, well known negro minister, shot in head and seriously hurt.

James W. Prescott, shot accidentally, seriously wounded.

Herbert Miller, shot in hip, not seriously hurt.

Edward Peal, negro, seriously wounded by member of mob.

VALUATION OF WATER PLANT IS REPORTED

Appraisal of Engineers Fig-
ures Cost of Production
Of Plant at \$445,000

TO HAVE A HEARING

City and Water Company to
Be Given Chance to Object
Before Final Valuation

It would cost \$445,000 to replace
the Bismarck Water Supply Com-
pany's property entirely new, fig-
uring price on the materials in the
plant as they were on September 1,
according to the valuation of the
company's property made by the en-
gineering department of the railroad
commission. Depreciated value of the
property, figuring prices as of Sep-
tember 1, is given as \$400,838.

The actual construction cost of the
materials in the plant, as figured
by the engineers of the commission,
is \$276,436 and the depreciated value
on this basis is \$247,582.

The tentative valuations have been
submitted by the railroad commis-
sion to the water company and the
city commission, the valuations being
made as a result of the water rate
hearing held sometime ago. A time
for hearing will be fixed at which
both the city and the company may
enter objections to the valuations.

The railroad commissioners then will
take the reports of the engineering
department and fix the valuation on
which rates will be fixed designed
to yield a fair rate of return on
the investment, according to the
utility practice.

Based on Two Methods.
The appraisal of the engineering
department was based on two meth-
ods—the reproduction cost and the
original construction cost. The rail-
road commission has held that under
the laws of the state it is required
to value utility property on the or-
iginal construction cost—that is, the
actual amount of money paid for
construction of the plant and addi-
tions. Utilities hold this is an un-
fair method and not followed in other
cases. The method of valuation is
involved in a suit brought against
the commission by the Minot electric
utility and is now pending in federal
court.

Wage Agreement

OLD PAY IS MAINTAINED

(By the Associated Press)
Chicago, Oct. 3.—A new agreement
maintaining the old rates of pay
and rules and working conditions
was signed today by representatives
of approximately forty-nine railroads
and subsidiaries and the Brother-
hood of Railroad Trainmen and the
Order of Railway Conductors.

The agreement, which will be in
effect until October 21, 1923, besides
maintaining old wage levels and
rules, including time and one-half
for overtime after eight hours, was
considered by the employees' organi-
zations as favorable to them. Great
ance committees of trainmen's or-
ganizations on nineteen railroad enter-
prises Chicago have approved the agree-
ment before W. G. Lee, president of
the Trainmen, and L. E. Sheppard,
president of the Conductors, affixed
their signatures today.

Under the agreement, all disputes
as to rules and working conditions
now pending before the Labor Board
will be withdrawn by both roads and
trainmen and conductors.

Today's agreement included the
principal railroads entering Chicago
and traversing territory west of the
Mississippi river and with agree-
ments signed with eastern lines, ap-
proximately three-fourths of the rail-
road mileage of the country now has
signed up with the trainmen and
conductors, Mr. Lee announced. Be-
sides these roads which actually
signed the agreement today, others,
according to both representatives of
the roads and brotherhoods, are ex-
pected to accept the same agree-
ment.

The roads which signed today in-
cluded: Chicago & Northwestern,
Chicago, Burlington & Quincy, Chi-
cago, Milwaukee & St. Paul, Chicago,
St. Paul, Minneapolis & Omaha, Du-
luth, South Shore & Atlantic, Great
Northern, Minneapolis, St. Paul &

CORPSE IS BURNED GARAGE FIRED TO GET INSURANCE

This Is Charge Made Against
St. Louis Man by Police—
Grave Robbed

(By the Associated Press)
St. Louis, Mo., Oct. 3.—Charging
arson and grave robbery, a warrant
was in the hands of the police today
for the arrest of Harry R. Brenn,
who has been missing since Sept. 25,
shortly before his garage at Oak-
ville, Missouri, near St. Louis, was
burned. In the ruins of the first was
found a charred body, which, at
Brenn, but later proved to be that
of Miss Celestine Schneider, which
was stolen from its grave.

A warrant also was sworn out
against Brenn's wife, who is under
arrest in connection with the case.

The warrant charge Brenn with
having stolen the corpse from the
cemetery placing it in his garage
and setting fire to the garage. The
motive, according to the police, was
to obtain \$6,000 insurance, which
Brenn carried.

Mrs. Brenn is charged with with-
holding information as to any part
she may have played in the plot,
which, the authorities say, her hus-
band planned, and refusing to in-
form the police of his whereabouts.

Seventeen Fires Are Burning

To Ellmers

SITUATION SERIOUS.
Duluth, Minn., Oct. 3.—The
forest fire situation in the terri-
tory North and West of Duluth
had become so serious early this
afternoon that the combined fore-
stry and military forces are con-
centrating all efforts on removing
settlers and protecting build-
ings. G. M. Conzet, forestry field
administration chief, disclosed.

Heavy shifting winds during
the last 24 hours with a 20-mile
wind blowing today have put the
forest fires out of control, Mr.
Conzet declared.

St. Paul, Minn., Oct. 3.—A thirty-
five mile an hour wind at 4 o'clock
this morning was driving the fires
in the Yeloxe, Sax, Meadowland and
Fernay districts, according to reports
received at the office of the state for-
ester, and fire fighters reported that
there was little prospect of prevent-
ing the fires from running together.
Sparks from the fires were dropping a
quarter of a mile away.

Seventeen fires are burning in
these three districts and some of
them have drifted out of the bog
country and are running into the
highlands, threatening to creep into
valuable timber lands, according to
reports to the state forester's office
here.

Portry officials are apprehensive
that the fires will reach the heavily
wooded sections today under the im-
petus of the high northeast wind.
Rangers, in reports to headquarters
this morning declared "there is no
telling what will happen if the wind
get right today. There are too many
new fires."

The largest fire is burning on a
12-mile front and is almost solid
from Sax to Ellmers, accord-
ing to reports, which say that new
fires are springing up almost contin-
uously, started by flying sparks.

Rangers report there is little
probability of any loss of life as
virtually all persons living in the
threatened districts have been remov-
ed to places of safety.

FIRST WOMAN U. S. SENATOR IS APPOINTED

Mrs. W. H. Felton Is Given
Honor by Georgia
Governor

IS 87 YEARS OF AGE

Doubtful if She'll Qualify as
Successor to Watson Is to
Be Elected

(By the Associated Press)
Atlanta, Ga., Oct. 3.—Mrs. W. H.
Felton of Carterville, Georgia, eighty-
seven years old, was appointed by
Governor Thomas W. Hardwick to
fill the vacancy caused by the death
of Senator Thomas E. Watson until
the people elect a successor in No-
vember. Mrs. Felton will be the first
woman to become a senator.

At the same time Governor Hard-
wick announced his candidacy to
succeed United States Senator E.
Watson Georgia, who died last week
in Washington. The primary will be
held October 17.

Whether Mrs. Felton will actually
have an opportunity to qualify and
serve as a member of the senate is
doubtful for her successor will have
been elected when the senate meets
in December.

Mrs. Felton is the widow of Dr.
W. H. Felton of Carterville, Ga., who
served as a member of congress for
several years. She has long been
active in Georgia politics. Many
years before the women were granted
the right of suffrage Mrs. Felton
managed her husband's campaign and
stumped the district in his be-
half. She was a friend of the late
Senator Watson and supported Gov-
ernor Hardwick in his recent cam-
paign for re-election.

Mrs. Felton announced her accept-
ance of the appointment.

Governor Hardwick, in a state-
ment, said he had offered the ap-
pointment to Mrs. Watson, the widow
of the late senator, but "to my deep
regret Mrs. Watson has
Mrs. Watson Declined.

conveyed the information to me that
ill health and an aversion to the
public station in her own name ren-
ders it impossible for her to ac-
cept."

The statement then continued:
"In all the circumstances, I have
therefore concluded to bestow the
honor of this appointment upon an-
other noble Georgia woman."

Governor Hardwick said Mrs. Fel-
ton would serve until the general
election, November 7th, when a suc-
cessor to fill the unexpired term
would be chosen.

WILL DRAW PAY
Washington, Oct. 3.—Although
Mrs. W. H. Felton, appointed to suc-
ceed the late Senator Watson of
Georgia, probably will not have the
opportunity of actual service in the
senate because of the present recess
of congress, she will have the pay
and perquisites as well as the title
of a senator until a successor is
chosen.

Mrs. Felton is not expected to come
to Washington as she may take the
oath of office in Georgia and receive
her commission from the Governor
there.

night of September 28, during a

Knott, Frank Lage and Glenn Knott,
charged with receiving part of the
loot from the jewel robbery, also
pleaded not guilty. No date was
set for trial of the men. Roy
Lage and Carroll Denbow, the other
two men bound over from municipal
court, yesterday pleaded guilty to
the robbery at his hearing in munici-
pal court last week, were rearrested
late yesterday and will be given
another preliminary hearing this
morning.

Mudania, Oct. 3.—Never was there

of the great warships of England,

POSSE HUNTS
SLAYERS OF
TRAIN GUARD

Staples, Minn., Oct. 3.—A posse of
seventy-five men headed by the chief
of police are searching this vicinity
for three men, one of whom shot
and killed John Montgomery, a
Northern Pacific passenger train
guard in the yards early today. Mont-
gomery lived two hours after the
shooting and was able to give the
police a close description of the men
who attacked him.

The shooting occurred at the end
of the railroad yards, where Mont-
gomery left the train after riding
it through the yards to prevent
trains from boarding it.

According to the story he told the
police, he had just stepped to the
ground when three men who were
standing on the right of way opened
fire on him. He said he believed
only one man shot, although five
bullet wounds were found in his
body. He declared the shooting be-
gan without warning and that he
had no chance to return the fire.

LAMONT IS OPTIMISTIC OVER FUTURE

Declares that Hurdle of Low Prices Is Easiest One To Jump

New York, Oct. 3.—A picture of America, recovering from the "rude buffets and deep wounds" of 1917 to 1921, and "with characteristic courage, binding up her bruises, and slowly moving forward to new goals" was drawn today by Thomas Lamont, associate of J. P. Morgan, in an address before 10,000 delegates at the convention of the American Bankers' association.

"But we have not yet cause for unbounded confidence," he cautioned the bankers. "We must not forget that before the race is won, we still have some high hurdles to jump."

These bars in the path of full prosperity, he enumerated as low prices prevailing for farm products, labor strikes; the soldiers bonus; the new tariff act, and the foreign situation, with respect to reparations, allied loans and international trade.

Mr. Lamont sought to console the farmers, who, he said, complain that "though this is a big season for crops, our net money gain will be small."

"I shall attempt to argue the point of lower prices," continued the financier. "But I never knew a country to go broke because of its abundant crops. So, even though our farmers suffer disappointment, I think the low price hurdle is the easiest to jump."

The farmers had high prices in 1919 and 1920, but the aftermath was a serious one for them. In the long run, they, like all of us, will fare better on a moderate price scale, with small fluctuations.

VALUATION OF WATER PLANT IS REPORTED

(Continued from Page 1)
the original cost and after depreciation is written off is as follows:

	Construction Cost	Depreciated Value
Land	\$ 1,133	\$ 1,133
Transmission and distribution system	153,313	142,571

Materials and supplies	6,560	6,560

The items under the division of transmission and distribution system include the mains, hydrants and connections, services, meters, intakes, collection aqueducts and supply mains; fountains, troughs. The construction cost of the mains is given as \$108,000 and the depreciated value \$102,100, the depreciation in the mains being figured at \$6,890. The original cost of hydrants and connections is figured at \$4,843 and the depreciated value \$3,874; services, original cost \$17,513; depreciated value, \$15,753; meters, original cost \$500; depreciated value \$450; intakes, etc. original cost \$21,467; depreciated value \$20,394.

Reservoirs Cost
The only large item under the division, buildings and miscellaneous structures, is the reservoirs. The original cost is figured at \$52,039 and the depreciated value \$42,951, a depreciation of \$9,145. Other items in the original cost under various divisions are: pumping station buildings, \$5,491; wells, \$3,725; miscellaneous buildings, \$4,657; pumping equipment \$12,253; sterilization equipment, \$2,258; miscellaneous plant equipment, \$6,495; utility equipment \$690; general office equipment \$1,732; shop equipment \$1,171; miscellaneous, \$288; engineering and superintendence, \$9,788; law expenses during construction \$2,442; interest during construction \$7,360; fire and liability insurance \$3,663; miscellaneous construction expense, \$1,301; distribution system supplies \$5,410; power plant supplies \$276; general office supplies \$700; miscellaneous supplies \$175; pumping station and source of supply land \$493; other land \$640.

Cost of Rebuilding
Under the reproduction cost method the amount of money it would take to reproduce new the largest items of the company's plant is given as follows: transmission and distribution system, \$236,996; buildings and miscellaneous structures \$120,175; plant equipment \$31,356; general equipment \$4,098; overhead costs \$47,111; materials and supplies, \$6,560. Sub-divided these divisions include: water mains, \$170,807; services \$24,398; intakes, collection aqueducts and supply mains, \$32,602; reservoirs \$96,371; pumping equipment \$17,891; distribution system supplies \$5,410.

at Madania but at the same time point out that the crisis has not yet entirely passed.

It is believed that if the allied representatives stand firm on the Paris program two or three days will see the successful termination of the Mudania meeting and a favorable answer to the joint allied note from Mustafa Kemal Pasha. The feeling reflected in British circles is that a position has now been reached which will make it possible to conclude peace in the Near East before the winter is over.

HIGH WINDS INCREASING FIRE HAZARD

(Continued from Page One)
recommended today by G. M. Conzel, forestry field administration chief. Mr. Conzel hoped to arrange with the Duluth Automobile club to have volunteer motorists patrol the outskirts of the city. Mr. Conzel said there was no immediate danger of the fires reaching Duluth. Mr. Conzel offered his suggestion as a matter of precaution against flames being driven this way by strong northerly or westerly winds. The wind now is blowing from the northwest. The nearest fire is 20 miles away.

WOMEN LEAVE TOWN

Rosseau, Minn., Oct. 3.—All women and children have been evacuated from the town of Salol, nine miles east of here and about the same distance from the Canadian border, which was menaced when a post bag fire got out of control, according to word received here today. It was said that approximately 250 persons were in the danger zone, but that virtually all of them had been warned.

O'CONNOR TO SPEAK IN CITY ON SATURDAY

(Continued from Page 1)
for Clyde L. Herring, Democratic nominee.

First, Mr. Harding was told that Iowa Republicans are incensed at the defeat of a favorite Republican candidate by Smith W. Brookhart, former army Colonel and American Legion man. Then he was told by local Republicans that Brookhart attended a convulse of radicals in Chicago on Feb. 1 last, where, the Republicans assert, each radical candidate was to inveigle himself onto a regular old-line party ticket.

Next Dr. Harding was entertained by E. T. Meredith, former Secretary of Agriculture, and finally he was entertained by Mr. Herring, the Democratic candidate himself.

After all this Dr. Harding was invited last night to speak before the Polk County Association and that is when he said:

"Mr. Herring is a gentleman. The man running against him is a Socialist in Washington causing trouble. My boy has enough Bolsheviks troubling him there now. I have my sleeves rolled up for Mr. Herring."

William Lemke, league candidate for governor, will open his campaign in the western part of the state with a speech in Mandan tonight. Mr. Lemke will make an extended speaking tour of the Slope territory following the Mandan speech, which will be the first rally of the league in the campaign in the western part of the state.

John Beck, former state senator, has been picked to run against Senator Nathan Leavitt, in the recall instituted in Sheridan county by the Independents. Mr. Beck was a candi-

dent. Although other flyers made frantic efforts to warn him of his danger, Captain Skeel circled over Lake St. Clair for half an hour, then returned to the field and crashed in landing.

FLOWER DAY IS PLANNED

"Forget-Me-Not Day" to be Considered by Disabled Veterans' Chapter

Plans for "Forget-Me-Not Day" which is set for November 4, were discussed at the meeting of the local chapter of Disabled Veterans of the World War held last night in the offices of the Workmen's Compensation Bureau.

"Forget-Me-Not Day" corresponds to Poppy Day of the American Legion. Forget-Me-Nots will be sold and the money raised used directly in the interest of men disabled in the World War.

Mrs. E. A. Tracy who is the Bismarck chairman for forget-me-not day was present at the meeting and outlined to the members present some of the plans for making the day a success.

Buttons were given by the government to all soldiers who were disabled in action. It represents Columbia with drawn sword before a background of the American flag, kneeling a kneeling uniformed soldier. The large lithograph has this inscription: "Columbia gives to her son the accolade of the new chivalry of humanity."

MAKING MONEY WITH TURKEYS

Washburn, N. D., Oct. 3.—Mrs. Roy Parks, who lives along the creek northeast of Washburn is making money with turkeys. At present she is fattening a flock of 125 turkeys. She raised pure bred Bourbon Reds. Last year Mrs. Parks cleared over an average of \$5.00 for each turkey she sold. She gets the top price for the turkeys.

They are dressed and shipped direct to houses in Minneapolis and Chicago, who pay high for dressed turkeys at Thanksgiving and Christmas time. Besides turkeys Mrs. Parks is busy with a flock of 400 Rhode Island chickens and a flock of about 40 Penkin ducks.

S. D. CANDIDATE URGES PLAN TO STEADY PRICES

Believes Stabilization of Prices of Agricultural Products Would Be Obtained

Sioux Falls, S. D., Oct. 2.—The financial condition of farmers in South Dakota has reached a critical stage and the remedy, which must come immediately, is stabilization of prices on wheat and corn, said Louis N. Crill, Democratic candidate for Governor of South Dakota in an address here this afternoon.

The candidate declared that he found the farmers more discouraged now than in "the hazardous times of the nineties," and said that the burden of debt is so much greater now than it was in the nineties that the situation is much more serious.

"A remedy must come without delay," said Mr. Crill. "Or the farmers of the nation will have suffered such a setback as will take a lifetime to overcome. After considering the serious conditions that have developed since harvest time, I have come to the conclusion that stabilization of prices on wheat and corn are an absolute necessity."

"Every article the farmer buys is stabilized in one way or another and his products alone are subject in price to manipulation, over-marketing and other causes. My plan would be to have the farmers closely organize in such an organization as the Farm Bureau and become a grain growers' association, with every farmer pledging to have a granary on his farm, that the five millions of farmers in the United States might become, in one solid bloc, the reserve basis of their products."

With a cooperative organization of the grain growers of this kind it would constitute a factor which, with a granary on every farm, could be made instrumental in controlling the reserve necessary to stabilize the price, the speaker said, and continued, in part as follows: "Then with this organization of farmers founded to carry out the purpose of stabilization, it would be no great financial hardship for the government to establish the minimum price on wheat and corn, cooperating with the farmers under agreement to regulate the reserve. "The minimum price at which the government should stabilize the principle products of the farm, wheat and corn, should insure a fair return upon his farm investment and a profit that would give him a good earning ability."

RACE RIOT BREAKS OUT IN ALABAMA

(Continued from Page One)
W. A. Warren assaulted by policeman, not seriously hurt.

Authorities announced that Terrell had been removed today "to another prison." The negro was shot in the hip by a posse which captured him near Union Springs.

Daylight revealed scars of the mob's vengeance. One side of the prison was peppered with various kinds of shots and bullets. The uniform of a fireman who was directing the water onslaught was pierced by a bullet fired by a member of the mob. Although great provocation at times was offered, military officers said they refused to allow guardsmen to return the fire of the mob which was mainly directed in the air and toward the upper sections of the jail.

The county grand jury was assembled today in extraordinary session to inquire into Terrell's case. The military remained on duty about the prison.

CLUB WOMAN URGES FIRE PREVENTION

(By the Associated Press.) Devils Lake, N. D., Oct. 3.—The United States has a greater fire loss than any European Nation, Mrs. L. N. Cary, president of the North Dakota Federation of Women's clubs told her auditors today in her annual address as president of the association. She urged her hearers to take this matter up before the clubs and attempt to aid in decreasing the fire risk in the United States. In her address, she also reviewed the work of the year and recommended a greater interest in the history of the state and in the original settlers.

AT THE MOVIES

CAPITOL. Doris May and a cast of high distinction comes to the Capitol theater soon in her latest and best R. C. comedy "The Understudy." Miss May occupies today a position of tremendous popularity among cinema stars and her sponsors assert that "The Understudy" will win her thousands of new admirers. It is a story about a young country girl who goes to the city to get a job on the stage. She becomes an "understudy" to a veteran chorus girl and unwittingly tumbles into a romance that wins her endless happiness. The vehicle was designed for laughing purposes chiefly and is said to be a corking summer entertainment. Wallace Harrington, Otis Harlan and Arthur Hoyt appear in the cast.

"IN THE NAME OF THE LAW"

This big movie played to turn away business at the Strand Theatre, Minneapolis, last week. The story portrays one of the greatest thrill scenarios ever delivered on the screen, its a picture of Mother and Father Love that will touch the heart like a benediction. A beautiful symphony of emotions that will make your whole being thrill with gratitude for your Father and Mother.

The cast includes many screen favorites including Little Ben Alexander of Hearts of World fame, Ralph Lewis of Birth of Nation fame, Ella Hall, Claire M. Dowell, Johnnie Walker and Emory Johnson who is also author of the story. Special rates will be given to auto parties of three or more people who attend either matinee or night performances. The prices to this special picture will be the usual Palace popular prices for Wednesday and Thursday pictures.

PROBING ROBBERY

Minot, N. D., Oct. 3.—Sheriff Thomas Hennessey of Bottineau was in Minot yesterday afternoon investigating the murder of Carl Peterson, Westhope night marshal, by a gang of burglars. He conferred with Chief of Police L. M. Byrne and other officials. "I can't exactly understand the robbery in some respects, inasmuch as the burglars took several cheap articles out of the store which will be of very little value to them," said Hennessey, who thought it possible that they might have escaped to Minot and were in hiding here.

News of the Markets

WHEAT SHOWS INCREASE ON EALY DEALS

(By the Associated Press)
Chicago, Oct. 3.—Unsettledness regarding a possible unfavorable outcome of peace conferences between the Turks and the allies, led to higher prices in the wheat market today during the early dealings. The fact that the Canadian visible supply showed a decrease notwithstanding big receipts which were further bullish influence. It was also a subject of comment that Liverpool quotations were showing more firmness than had been looked for. The opening here, was varied from 1/4 to 1/2 higher, with December 90 1/2 to 91 1/2, and May 1.08 1/2 to 1.09 1/2, was followed by slight additional gains.
Corn and oats displayed independent strength, offerings being small and demand good. After opening 1/4 to 1/2 higher, December 60 1/2 to 61 1/2, and May 1.08 1/2 to 1.09 1/2, was followed by slight additional gains.
Absence of any pressure to sell tended to uphold the previous market despite lower values.
Subsequently, the market eased off, influenced more or less by bearish estimates of the Canadian yield and of world import requirements, but the effect failed to last. The close was firm, with December 60 1/2 to 61 1/2, and May 1.08 1/2 to 1.09 1/2, was followed by slight additional gains.
Oats started 1/4 to 1/2 higher, December 37 1/2 to 38 1/2, and later continued to ascend.
Absence of any pressure to sell tended to uphold the previous market despite lower values.

NEWS OF WALL STREET

(By the Associated Press)
New York, Oct. 3.—The rapid advance in oil shares which ranged from 1/4 to 1/2 point, following the opening of today's stock market, Standard Oil of California was pushed up 4 points to a new high for the year and gains of 2 to 2 1/2 points were registered by Standard Oil of New Jersey, Associated Oil and Mexican Petroleum, and the other members of the Standard Oil of New York opened up 1/2 point to 5/8 and then soared to a new high of 57 3/4, a net gain of 18 points. Ralls also were in good demand, New York, Chicago & St. Louis, first preferred, mounting two points to a new high and Lackawanna, also mounting its high of the year on a similar gain. National Biscuit established a new peak price on a gain of 1/4 point and Loos-Wiles advanced 2 1/2 in sympathy. Public utilities, equipment and sugar shares were bought at higher prices. Strength of American Express which moved up 4 points was one of the features of the specialty list. General Asphalt and Pierce Oil, preferred, were conuved.
Prices conveyed their upward trend during the morning. The bidding of several specialties to new high records indicated active resumption of pool operations, which apparently was influenced by the better tone of foreign and domestic news and the prospects for easier money rates. Underwriting of a few wopots, such as Crucible, Republic and Midvale Steels and United Retail Stores, failed to halt the advance elsewhere. The extent of covering operations indicated that there had been a substantial increase in the short interest in the past two weeks. Krege and American Radiator were among the stocks to break through for new high records the former gaining 8 1/2 points and the latter 4. National Biscuit extended its gain to 8 points and Lackawanna touched 139, up four points. Call money opened and renewed at 4 1/2 percent.
Absorption of high priced stocks was so confident during the after-

CASH WHEAT UNSETTLED
(By the Associated Press)
Minneapolis, Oct. 3.—Cash wheat was still unsettled today but the trend was upward. Receipts continued liberal in general the market was firm and scattered sales were higher. Durum wheat was about steady. Winter wheat demand was fairly active and offerings were moderate. Corn demand and offerings were moderate. Rye demand was better with seven elevator companies edging their bids up a quarter of a cent. Barley prices were very strong with all firm and some sales were made at a cent advance.
Flax offerings were fairly heavy, but there was no lack of outlet and competition between crushers put premiums up a cent on the average.

\$35,000 FIRE LOSS CAUSED BY GAS STOVE

Sentinel Butte, N. D., Oct. 2.—Fire caused a loss of about \$35,000 here Sunday at noon, and for a time threatened the destruction of the entire business district of the city. Local fire fighters, aided by members of the Beach fire department, prevented the spread of the flames.
The fire destroyed a building owned by the Sentinel Butte Saddle company, and occupied by the John Gradin shoe shop and Harry Watson's Cafe; the First National bank building, the Sentinel Butte Supply company building, and a vacant building owned by Clyde Hland.
Fire originated from a gas stove in the supply company's store, and had made big headway when discovered.
Several times the A. L. Martin hotel building, located across the street from the burned area, was afire, but it was saved.

OPEN FOR BUSINESS
Information received here today from Sentinel Butte advised that all four business houses, burned out in the \$35,000 fire here Sunday, have secured new quarters and have opened for business here today.
The E. C. Best merchantile was protected by the insurance. All the others were well insured. The First National Bank, Harris Meat Market and the Sentinel Butte Saddle Company were the other buildings destroyed.

FAIR PRICES FOR COAL IN OHIO FIXED

(By the Associated Press)
Columbus, Ohio, Oct. 3.—Fair prices for Ohio coal will range from \$3.56 to \$4.86 a ton at the mines under the emergency fuel law recently enacted at the request of Governor Davis, and will become effective October 10, it was announced today at the governor's office.
Seventy-five to eighty percent of coal mines in the state, under the schedule of prices, prepared by Fuel Administrator Neel, and approved today by Davis, will be limited in price to \$3.56 and \$3.75 a ton, it was said. The schedule provides that 25 cents more a ton may be charged for lump coal, and 25 cents less for slack.

NEW BISHOP IS WELCOMED

South Dakota Catholic Diocese Does Him Honor

(By the Associated Press)
Sioux Falls, S. D., Oct. 3.—Accompanied by a distinguished body of prelates, Bishop Bernard J. Mahoney, successor to the late Bishop Thomas O'Gorman as head of the Roman Catholic diocese of Sioux Falls, arrived here this morning. Tomorrow at St. Joseph's cathedral, Archbishop Austin Dowling of St. Paul, will install the new bishop. Among the party arriving this morning with Bishop Mahoney were Archbishop Dowling, Bishop Muldoon of Rockford, Illinois; Bishop Edmund F. Gibbons of Albany, New York, and a number of priests and laymen, representing the state of South Dakota and the Sioux Falls diocese, went to Sheldon, Iowa, this morning and accompanied the prelate here. Besides the churchmen in the Bishop's party were his brother, John Mahoney, and a sister, Miss Margaret Mahoney, both of Rensselaer, N. Y. Governor W. W. McMaster of South Dakota, is in the city to join in welcoming the bishop in behalf of the state.

INJUNCTION TO HALT SCHOOL

Judge McKenna Issues Order Against Ashley Board

Napoleon, N. D., Oct. 2.—The action of Christ Doekter and other taxpayers of school district No. 9, McIntosh county, which includes city of Ashley, seeking an injunction against the school board of that district restraining them from negotiating school bonds, in the sum of \$40,000 which were recently voted for the purpose of building a new school building, equipping it and the purchase of a new schoolhouse site at Ashley. The injunction was granted on the ground, first, that the petitions which were presented to the school board and upon which the election was based contained only one proposition, namely, the voting of \$40,000 bonds for erection of a school house, but said nothing about the purchase of a site and of the equipping of the building, and the petition did not have a sufficient number of signatures. Second, the school board called an election for the purpose of voting on the three propositions all in one ballot, and also advertised that the polls would be open from nine o'clock in the morning to five o'clock in the afternoon, while the school law provides that the polls shall be open from two to five o'clock.

Also it was the view of the court that the three propositions, even if they had been properly petitioned for, could not be legally voted upon one and the same time on one ballot.

FARMERS SUE FOR HAIL LOSS

Beach, N. D., Oct. 2.—Saturday evening the farmers of Golden Valley county, whose cut grain was destroyed by hail Sept. 6, and the loss denied by the state hail department on the ground that the grain had been "harvested," decided to test the validity of their claims in court. An action in mandamus or a friendly civil suit will be the route taken as soon as attorneys can prepare the case.

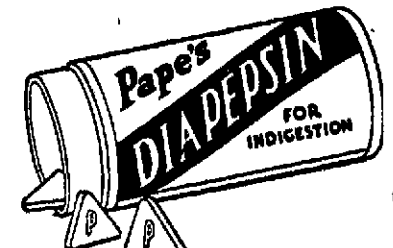

The meeting was practically unanimous in action after the situation had been discussed from many angles, and while all were not confident of success, it is believed in case of defeat the hail insurance law will be made less ambiguous by the next legislature; possibly in case the department wins, an effort will be made to have the legislature reimburse the farmers for at least part of their loss.

A committee of four farmers and one businessman was appointed to employ attorneys and assist in the prosecution of the case, costs of which will be paid for by an assessment on crop losers and volunteer contributors. The loss entitled is estimated at \$200,000.

CLOSED CAR DEMAND HIGH

Mounting Percentage of Closed Car Production Reported by Makers

Production schedules prepared by the motor car manufacturers for the coming year reflect accurately the constant increasing desire of the public for closed car comfort. The strength of the closed car demand is illustrated by the fact that Dodge Brothers, Detroit manufacturers, are planning to devote approximately 35 per cent of their large production for the latter half of 1922 to construction of closed cars. The importance of this figure is emphasized by comparison with last year's closed car percentage, which was approximately 13 per cent.

The production schedule shows that the closed car of today is distinctly not a "luxury" car. It is in great demand because it will stand up under hard driving and pounding on bad roads just as sturdily as the open car—and at the same time offer closed car protection and comfort.

The steel body construction which Dodge Brothers recently introduced in their Business Coupe and Business Sedan, provides strength and resistance to strain which is possible only where the construction throughout is of steel. And prices of closed cars can by no means be thought of as prohibitive, as they might have been years ago. The prices of Dodge Brothers all-steel closed cars, for example, now exceed the prices of the open cars by narrow margins of \$100 to \$300.

In the northern and eastern states, where from 5 to 7 months of the year are too cold for comfortable driving in an open car, the popularity of the closed car is growing by leaps and bounds. Even in the south, the buying public appreciates the instant protection against rain or inclement weather which this type affords.

The rapidly mounting percentage of closed car production shows
